The ranges

Three levels, so you can choose the feel and finish from the head-to-toe range that suits you - whether you want everyday value, a more premium weight, or a genuinely top-end hoodie you'll keep reaching for.

Base

Everyday comfort and strong value. A reliable, soft option that's ideal for daily wear — comfortable, easy to layer, and built to feel better than typical entry-level hoodies. (Around 280gsm.)

Better

A step up you can feel. More weight, more substance, and a more premium handfeel — warmer, more structured, and a noticeable upgrade without going over the top. (Around 310gsm.)

Best

The premium choice. The thickest, most “retail” feel of the three — made to look sharper, feel smoother, and stay in great shape wear after wear. If you want the best finish and the most long-term durability, this is it.

Across the wider collection

This same idea runs through the wider collection too. It's not just about hoodies — each garment sits in Base, Better or Best based on how it's made and how it feels, so it's easy to choose the right option every time.

Cord change

A service designed for decorators.

We can swap the drawcord to suit your colour scheme, so it ties in with a logo, team colours, a school, an event, or a specific brand palette.

It's a small detail that makes a big difference. Your hoodies look more co-ordinated, more considered, and instantly more premium — without the cost of going fully bespoke.

How it works

- Choose your hoodie.
- Choose your cord colour, and aglets if required.
- We confirm the total cost for your co-ordinated hoodie.
- We carry out the cord change for you (please allow around 3 extra working days for delivery).
- Ask us about available colours and aglet (cord tip) options.

“Finding hoodies to match every team colour was a nightmare. Now we just change the cord!”
